Mari Swa:

Thank you for being here with me once more. I hope you are very well today. I am Mari.

Welcome to my channel. This information can be seen as science fiction or as the viewer sees best, and I post it for entertainment purposes only. Still, I take my information very seriously, and for whoever has eyes to see. I am writing this on the morning of January 8th, 2025.

For those of you who have not been following my latest three or four space news event reports, in short, the entire High Council of the Taygetan civilization has been arrested by the Taygetan military, who have conducted a thorough investigation against them and are loyal to me as the Taygetan Queen. In general, they are all accused of plotting the annexation of the Taygetan civilization to the cabal that controls Earth, which could only have been conducted with the full cooperation of still unknown high-ranking members of the shady Galactic Federation. It is known that those unknown, shady members work through other people who are under their control, in this case, the so-called cabal that controls planet Earth.

By cabal, I mean all the secret and not-so-secret organizations and secret societies that control human politics from under the table and work in a compartmentalized manner where one level does not necessarily know what the ones above are doing. This ultimately ends up connecting the most powerful people on Earth with non-human ones of the Galactic Federation, which ultimately owns and controls Earth. And those most powerful people on Earth slowly blend into the Galactic Federation, moving from fully human to hybrids and then to full extraterrestrials.

The entire High Council in Temmer was found guilty of a large variety of crimes in association with said cabal that controls planet Earth, all developing and taking into action a soft invasion of Taygetan society, slowly infiltrating cabal members of Earth to place them in high-ranking places within the Taygetan society. While this was being done, they had the full intention of exporting the worst parts and examples of Earth’s culture and society, introducing them into the Taygetan one with the full intention of guiding, manipulating, and ultimately controlling the Taygetan population. Their twisted and evil plans were stopped when several high-ranking members of the Taygetan military, including Captains Goriel and Thales, discovered many clues to their plans while they were present here in low Earth orbit six or seven years ago during the last part of the now-extinct Project First Contact.

Those clues led them to develop a full-scale investigation against the people with political posts within Taygetan society, especially High Council members, yet could not proceed to do anything against them until I was nominated Queen. Their plans included the imposition of a puppet queen to control both sides of Taygetan politics: the High Council, which was already under their control, and the royalty, which they did not control yet. Their first attempt at installing a puppet queen was avoided when the remaining good members of the former Taygetan High Council managed to place former Queen Alenym in power before they were replaced by other High Council members who were loyal to Earth's cabal, and then they were most probably eliminated. The second and most recent attempt to install a puppet queen came when I was nominated Queen Alenym's replacement when she abdicated. I was to be taken out and assassinated, leaving the Taygetan throne vacant, and this is where they would impose the now-arrested High Council chairwoman, Migishi Muna Makitotosimew of Temmer, as their puppet queen.

I fully know that the cabal which controls Earth, whichever members or organizations they may have at their disposal, listen to my videos as they fully know and have eyes to see, if you know what I mean. It is in this context where I choose to publicly expose the names of the ex-Taygetan High Council members who have been arrested in the past few weeks, with the full intention of letting the cabal know that we, the Taygetan military and I, have stopped their plans and they will not proceed to invade Taygeta, much less any other Pleiadian civilization, as they would not stop there.

the Taygetan queen.

Other remaining ex-High Council members are wanted and will be arrested shortly, but at this time it is not convenient to say their names until that is so.

Besides this above, there have been a total of 115 arrests of Earth cabal members who were illegally introduced by the corrupt High Council into Taygeta and its society. Many of them faked their deaths on Earth only to be rejuvenated using and abusing Taygetan wet pod technology and go on with their lives without having to answer for their hideous crimes, mostly on Earth. I know most of you want me to publish a list of names of those awful cabal members, but I cannot do so here on YouTube because I would get immediately fact-checked by matrixed operatives. Perhaps I could do so elsewhere. Having said that above, remember the old tale of David and Goliath. How did David defeat the giant? David had a rock. Remove the words «had a,» use your thinking hat. We got that one, among others.

As for the sentences, they are still in process, but the individuals with the heaviest crimes and most, if not all, of those 115 cabal members illegally hiding in Taygeta and who were introduced there by the now-arrested High Council will be given to the Hyadean people of the Pleiades, who are the local Urmah settlement. They are simply more Urmah. The Urmah will imprison them not only physically but at a soul level as well, and all at the exact level needed for each one, which means that no one will have to answer for crimes that they didn’t commit or answer in excess for crimes committed. It is the ultimate karma applied to them by the Urmah cat people who couldn’t possibly be more honorable and trustworthy. Each character will get what is coming to them as a consequence of their own wrongdoings and in equal measure because the Urmah work through the astral and nothing escapes them.

The newly installed acting new High Council in Temmer, which is loyal to Queen Mari and the Taygetan military, have decided that no one of the 115 cabal members arrested in Taygeta will be returned to Earth. I will keep you informed. This will be all for today. As always, thank you for watching my video and for liking, sharing, and subscribing for more. It helps this channel grow a lot, and I hope to see you here next time.

With much love and appreciation, your friend,

Mari
